```

Sample Output:
1.

```
==============================
Crop Harvest Advisory System
==============================
Please enter the crop name: Banana
Please enter the crop's estimated growth period in days: 24
Estimated Growth Period: 24 days
It's recommended to harvest your crop in the next week.

Please enter another crop's name or Exit to end the program: Apple
Please enter the crop's estimated growth period in days: 65
Crop Name: Apple
Estimated Growth Period: 65 days
The best time for harvest is within the next month.

Please enter another crop's name or Exit to end the program: Exit

Thank you for using the Crop Harvest Advisory System.
```

2.

```
==============================
Crop Harvest Advisory System
==============================
Please enter the crop name: Apple
Please enter the crop's estimated growth period in days: 110
Crop Name: Apple
Estimated Growth Period: 110 days
Your crop is a long-term crop. Harvesting time can vary based on factors like weather, soil condition, and crop variety.
Is the weather forecast favorable for your crop? [Y/N] : Y
You should start monitoring your crop's condition and be prepared for harvesting when it's ready.

Please enter another crop's name or Exit to end the program: Banana
Please enter the crop's estimated growth period in days: 95
Crop Name: Banana
Estimated Growth Period: 95 days
Your crop is a long-term crop. Harvesting time can vary based on factors like weather, soil condition, and crop variety.
Is the weather forecast favorable for your crop? [Y/N] : N
Consider consulting with local agricultural experts for advice on managing your long-term crop.

Please enter another crop's name or Exit to end the program: Exit

Thank you for using the Crop Harvest Advisory System.
```

3.

```
